

SATHISHKUMAR V

SENIOR FRONTEND & MERN STACK DEVELOPER | REACT.JS & NEXT.JS SPECIALIST

UAE: Dubai, UAE (+971 502693210) • India: Namakkal, Tamil Nadu (+91 80566 86885)
sathishkumarvbtech@gmail.com • linkedin.com/in/sathishkumar-v-5537b8148

PROFESSIONAL SUMMARY

Results-oriented **Senior Frontend & MERN Stack Developer** with **4+ years of hands-on experience** engineering high-throughput, secure, and production-scalable web applications. Specialized in **React.js, Next.js (SSR, SSG, ISR), Node.js, Express.js, and MongoDB with TypeScript**. Proven track record in orchestrating client/server state using **TanStack Query**, establishing rigorous **Role-Based Access Control (RBAC)** architectures, boosting Core Web Vitals, and reducing API response latency by ~30%. Demonstrated success collaborating in cross-functional Agile environments across international teams.

CORE TECHNICAL COMPETENCIES

Architecture & Stacks: MERN Stack (MongoDB, Express.js, React, Node.js), Full-Stack JavaScript, RESTful APIs, MVC Pattern
Frontend Engineering: React.js, Next.js (App Router, Pages Router, SSR, SSG, ISR), TypeScript, JavaScript (ES6+), HTML5, CSS3
Backend & Databases: Node.js, Express.js, MongoDB, Mongoose, REST API Design, JWT Authentication, Microservices Integration
State & Data Hydration: TanStack Query (React Query), Context API, Server-Side Caching, Optimistic UI Updates, Axios
UI Frameworks & Systems: Tailwind CSS, Ant Design (AntD), Responsive Web Design, Web Accessibility (WCAG / a11y)
Security & Forms: Role-Based Access Control (RBAC), Route Guards, Permission-Based UI, Formik, Yup Schema Validation
Tools, DevOps & Quality: Git, GitHub, Bitbucket, Postman, Vite, Webpack, Jira, Agile/Scrum, CI/CD Pipelines, Code Reviews

PROFESSIONAL EXPERIENCE

Cloudgate Host Solution – Senior Software Engineer

UAE | May 2026 – Present

- Architect and deploy mission-critical enterprise cloud portals and high-concurrency interfaces utilizing **Next.js, React, and TypeScript**.
- Collaborate on MERN stack integration, engineering resilient **Node.js/Express.js** backend endpoints and query pipelines for **MongoDB**.
- Enforce production performance benchmarks and bundle minification strategies, driving sub-second page rendering for global users.

Cloudrevel Innovations – Software Engineer

Chennai, India | Feb 2025 – Apr 2026

- Delivered high-performance React and Next.js applications catering to **50,000+ monthly active users** with high reliability.
- Designed and executed enterprise-grade **RBAC** tiers (Super Admin, Bank Admin, Merchant) with protected routing and granular access controls.
- Decreased page load times by **~35%** by implementing hybrid SSR/SSG rendering, dynamic code splitting, and automated asset caching.
- Cut API response overhead and redundant payload transfers by **~30%** via **TanStack Query** caching and query invalidation.
- Elevated search engine rankings and Core Web Vitals (LCP, FID, CLS) through automated JSON-LD and dynamic metadata injection.

RR Donnelley – HTML Developer

Chennai, India | Sep 2022 – Jan 2025

- Developed accessible, pixel-perfect, and cross-platform responsive web components across **20+ digital marketing initiatives**.
- Systematized cross-browser rendering tests, reducing client layout defects and cross-platform regressions by **~40%**.
- Streamlined DOM tree depth and eliminated render-blocking assets, boosting initial page painting performance by **~25%**.

Trasol Technologies – UI Developer

Namakkal, India | Aug 2021 – Jul 2022

- Crafted reusable React component libraries and design tokens, reducing feature delivery lifecycle by **~30%** across sprints.
- Integrated component-level code splitting and image lazy loading, improving user interaction metrics and interface responsiveness.

KEY PROJECTS

LMS for My Learn

Next.js, React, TypeScript, Node.js, Express.js, MongoDB, AntD, TanStack Query

- Architected interactive Learning Management System (LMS) featuring asynchronous course modules, state tracking, and RESTful APIs.

MyLedger – Enterprise Financial Platform

Next.js, React, TypeScript, Node.js, Express.js, MongoDB, AntD, Formik, Yup

- Engineered role-based permission logic (Admin, Reporting, Employee) governing financial actions and sensitive data views.
- Reduced user validation errors by **~40%** by enforcing schema-driven form validation mechanisms using **Formik and Yup**.

EDUCATION & CREDENTIALS

Bachelor of Technology (B.Tech) – Information Technology | K.S.R. Institute for Engineering and Technology

2017 – 2021 | **CGPA: 7.34**

Languages: English (Professional), Tamil (Native)

Engineering Practices: Agile/Scrum, Git Workflows, Clean Architecture, CI/CD
